More businesses will be added in 2009!

Top 10 reasons to join Mississippi Forestry Association

[Join MFA Online.](#)

1. MFA was created in 1938 to guard and grow Mississippi's forests and that is still our mission today.
2. We know that you are busy with work and family and can't research, lobby, educate or communicate as much as you would like despite understanding the importance of these actions. Your MFA membership allows us to do these things for you and the more members we have, the better job we can do.
3. We ensure that future generations will have clean water, clear air, outdoor recreation, wildlife habitat and a renewable wood supply for paper and wood products.
4. We protect your land and business from burdensome laws, taxes, and regulations. With a full time lobbyist, we know the legislative process and how to unify our partners to get things done to protect private property rights and our environment.
5. We teach Mississippians that we are not running out of trees and to better understand the social, ecological and economic value of forestry and our natural resources.

Tree Farm program	Statewide landowner and logger education
Teachers Conservation Workshops	Children's education programs—including Towering
Project Learning Tree	Treasures and Miss. Children's Museum
6. MFA is the respected leader and credible information source for forestry-related issues in Mississippi: *Tree Talk* magazine, *Voice of Forestry* newsletter, *Legislative Bulletin*, *CFA Connection*, www.msforestry.net
7. MFA is the only state-wide organization that represents every segment of the forestry community. Our unity allows us to be successful in Jackson and in Washington D.C. with important government issues.
8. MFA events help you connect with your forestry natural resources community. The MFA/CFA Legislative Luncheon provides the perfect opportunity to influence your legislators. The Annual Meeting offers prime networking and educational opportunities.
9. MFA simply makes Mississippi healthy and strong. Healthy forests, a healthy business environment, healthy community, and a healthy exchange of ideas all add up to a strong future.
10. The only thing missing in MFA is you! We need your membership to make a positive difference in the future of forestry and natural resources in Mississippi.
